## SSN Bibliography

Below is a **chronological bibliography** of work relevant to SSN model development and applications. Please see the [SSN/STARS website](#) for full details on using these models, the latest software versions, tutorials, and example datasets. If you are part of a group that has published a new study using the SSN models and would like to have it added to this bibliography, please [contact us](#) regarding the possibility.

Ver Hoef, J, EE Peterson, and D Theobald. 2006. [Spatial statistical models that use flow and stream distance](#). Environmental and Ecological Statistics 13:449–464.

Peterson, EE, AA Merton, DM Theobald, and NS Urquhart. 2006. [Patterns of spatial autocorrelation in stream water chemistry](#). Environmental Monitoring and Assessment 121:569–594.
